Request for Continued Examination

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08/22/2005 has been entered. An action on the RCE follows:

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Guy Gosnell on 09/06/2005.

The application has been amended as follows:

Claim 61,

Line 5, after "a tag" insert in place thereof -- affixed to said cover --.

REASONS FOR ALLOWANCE

3. Applicant's arguments, see pages 7-9, filed 08/22/2005, with respect to claims 53-65 have been fully considered and are persuasive. The rejection of the last Final office action has been withdrawn.
4. Claims 53-65 are allowed.

Art Unit: 2674

5. The following is an examiner's statement of reasons for allowance:

The present invention is directed to an apparatus for loading information in an electronic book having a display, a tag affixed to a removable cover, and protecting the information from unauthorized copying recited in claims 53, 58 and 61.

The closest prior art, Morris (US 6,460,138) and Redford et al (US 6,327,459), single or combination, fail to teach or suggest that a hand-held portable electronic display device comprising the encryption code of said tag is capable of being compared to an encryption code stored by the display device such that the protected information is accessible if said cover is mounted to the display device and the respective encryption codes match. This distinct feature has been added to the independent claims 53, 58 and 61 and renders the above limitation allowable and along with other limitations as recited in the independent claims 53, 58 and 61.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
